during non-instructional periods and locations at all schools (i.e. before and after school including while utilizing district transportation). At the High School level, it is recommended that during a student's designated lunch period, students are allowed access to student owned technology in the cafeteria/commons area. In addition, increased attention will be given towards integrating opportunities for positive use and value for student owned technology 30 devices. Building administrators and school staff will continue to monitor and allow for student owned technology use in the classroom when approved by instructional staff or principal. The majority of administrators and district teachers stated there is a benefit to having students using electronic devices in the classroom. In researching existing policies and cross referencing them for electronic procedures and rules, it was discovered that Policy 5435 and 6633 closely align and should be combined into one policy. School Leadership worked collaboratively with Teaching and Learning and Information and Accountability to update policy 6633 Student Technology Acceptable Use (Attachment B) to align with survey results and feedback. It is recommended that policy 5435 Electronic Devices (Attachment D) be eliminated because all areas are now covered in policy 6633.

The school board approved revised Policy/Rule 6633 Student Technology Acceptable Use, which includes the elimination of Policy/Rule 5435 Electronic Devices, as a first reading on January 23, 2018. Administration recommends that the school board approve the revision of Policy/Rule 6633 and elimination of Policy 5435 as a second reading on February 27, 2018.”
